### Does your insurance cover?

Did you know that some insurances will pay for weight loss medication? Here is what you need to do before your appointment to see which one (if any) your insurance will pay for. Call your insurance company you use for your prescriptions and ask if they cover any of the medications below. Then ask if it requires a prior authorization for it to be covered. We do not do this for you!

If your insurance does not cover any of these medications, don't worry we have a compound pharmacy that we can use. It is cheaper than paying the out of pocket cost at your local pharmacy.
